Food for thought

While certain sectors of European aquaculture have continued to grow over recent years, overall production has plateaued. There are numerous initiatives to stimulate growth, coupled to demographic and market conditions that show an increased demand, although their potential impact is diminished by varying factors.

The Aquaculture Europe 2016 event will present the latest science to support further development and industry panels will discuss key opportunities and challenges for growth in aquaculture.

September 20 Tuesday	September 21 Wednesday	September 22 Thursday	September 23 Friday
Move in 12.00 -18.00	Trade show open 10.00 -19.00	Trade show open 10.00 -19.00	Trade show open 10.00 -16.30
