

LATIN AMERICAN & CARIBBEAN AQUACULTURE 2020 – LACQUA20

Organizado por la World Aquaculture Society y su Capítulo Latino Americano y del Caribe con la colaboración de la Escuela Superior Politécnica del Litoral – ESPOL.

Press Bulletin No. 2

It is a great pleasure for the Latin American and Caribbean chapter (LACC) of the World Aquaculture Society to announce that the Latin American and Caribbean Aquaculture 2020 will take place in the city of Guayaquil, Ecuador from September 7 to 10. This year the LACQUA20 will share its space with the Ecuadorian Congress of Aquaculture 2020 (CEA 2020), becoming one of the largest events in the region today.

LACC and the Higher Polytechnic School of the Coast, ESPOL, will join forces to make LACQUA20 and CEA2020 to their liking. Just to start the trade fair, it already has a record sale of more than 120 stands where the most recognized companies, entities and institutions will be locally and internationally. If you and your company are interested in participating, do not hesitate to contact us.

In the yearning to offer a better academic and technical agenda every year this year we will have special guests with talks of great content in various aquaculture topics and a special agenda on shrimp issues. Our academic committee is in the task of selecting the best papers to be presented during the three days (September 8-10). Do not forget that the call is already open and you can send your abstract in the following link <https://www.was.org/meeting/Abstract/Submit/LACQUA20>

The LACQUA20 and CEA2020 will be at the Hilton Colon Hotel in Guayaquil and online registration is now open to all who want to be part of this great event. In the following link you can make your registration, remember to do it with time since you will benefit from special prices. <https://www.was.org/Meeting/Registration/Submit/LACQUA20>

The events will bring many more surprises and announcements that we will be sharing through our official website <https://www.was.org/Meeting/code/LACQUA20> and in social networks of the chapter such as Facebook and LinkedIn.
